VGC-LS32E

VAIO® LS32E All-in-One PC

Powerful PC performance tucked behind a slim and stylish LCD display

ALL-IN-ONE PC/TV COMBO

The VAIO® LS PC is designed to complement your living space. Sleek and modern, yet highly-functional, it blends with any room in your home or office. The essentials for powerful computing performance typically found in a desktop tower are built into the back of the flat panel LCD TV display in a slim chassis. Cables are discretely routed, ports are conveniently located on the sides, and wired connections are minimized with the included wireless keyboard and mouse.

ADJUST YOUR VIEWING ANGLE

To get that "just right" viewing angle, the back of the VAIO® LS32E PC features an adjustable leg, similar to those found on the back of a stand-up picture frame. You can adjust the leg backwards to meet your desired viewing angle or decrease the slant for space-saving, straight-on viewing.

BUILT-IN CAMERA

Video conferencing has never been easier. The VAIO® LS32E PC features an integrated camera for video messaging and conferencing with coworkers. Enjoy this feature with any compatible video messaging service and stay connected to friends and family with user-friendly chat and video mail functions[11] .

WIRELESS LAN TECHNOLOGY

The VAIO® LS32E PC delicately incorporates personal computing into your living space without all the added network cables. By utilizing built-in wireless 802.11 b/g LAN technology[1] and your wireless router(sold separately), you can position the VAIO LS32E virtually anywhere in your home and still access the internet, email, and your home network.

Complement your home with style and performance with the VAIO® LS32E, a powerful PC cleverly tucked behind a gorgeous widescreen LCD display.
Elegantly framed with a transparent border to produce a stunning floating effect, the VAIO LS32E is an astonishing PC showpiece that reflects corporate sophistication and style.

UPC Code: 027242717923

1. Requires 802.11b or 802.11g compatible access point. Some functionality may require Internet services, which may require a fee.
2. DVD media/formats are not universally compatible
3. Total Available Graphics Memory refers to the new Windows Vista classification of graphics memory, which is the total of Dedicated Video Memory, System Video Memory and Shared System Memory. Shared System Memory varies depending on the operating condition and system memory size.
4. GB means one billion bytes and TB means 1,000 GB when referring to hard drive capacity. Accessible capacity may vary. A portion of hard disk space is reserved as a recovery partition.
5. Viewable area measured diagonally
6. When available. Sony will provide Onsite Service in fulfillment of its limited warranty obligations. Any such services are subject to the terms and conditions of the limited warranty. See actual Limited Warranty for details. Onsite Service will be provided via third-party technician to be dispatched as needed following phone-base trouble-shooting. Some repairs may be accomplished with self repair kits. Onsite Service may not be available in all locations.
7. For certain third party software applications, Sony provides first level phone support. Additional telephone support may be available from the applicable 3rd party vendor. Availability and schedule for any such support is determined by the applicable software vendor.
8. GHz denotes microprocessor internal clock speed; other factors may affect application performance. CPU speed will be reduced under certain operating conditions.
9. The Microsoft Office 2007 60-Day Trial software is intended for evaluation purposes only. This trial software is installed on your system and you must activate the software before you can use it. Product activation procedures will be detailed during initial launch of the software; activation requires Internet access. This software has an expiration date of 60 days from date of first use, at which time the software will operate under reduced-functionality mode, limiting end-user options and operations.
10. i.LINK is a trademark of Sony used only to designate that a product contains an IEEE 1394 connector. All products with an i.LINK connector may not communicate with each other.
11. Broadband internet service required along with third party services which may require a subscription or other service fee.

Computer Interface: The computer industry lacks standards, and therefore, there are a multitude of varying software packages and add-on hardware options. This personal computer is not manufactured to any specific software, and Sony does not and cannot make any warranty or representation with respect to the performance of this product with any particular software packages and/or non-Sony add-on hardware option except those mentioned in this document. Sony hereby disclaims any representations or warranty that this product is compatible with any combination of non-Sony products you may choose to connect. While Sony representatives or Sony authorized dealers may be able to assist you and may make recommendations, they are NOT authorized to vary or waive this disclaimer. Purchasers must determine for themselves the suitability and compatibility of the hardware and software in each and every particular instance. Some pre-installed software titles may not include full documentation. Software titles pre-installed on the Sony Desktop Computer are subject to change without notice. Simulated graphic shown on display. This product meets the standards of the International Energy Star Program for energy efficiency. Features and specifications are subject to change without notice. Weights and measurements are approximateand may vary.
